

# BALLOON TYPE FLOAT SWITCH

## ➤ SPECIAL FEATURES:

**Hermitically Sealed**

**Prevents dust, dirt, moisture etc.**

**Low cost, easy installation.**

**Choice of Switches**

**- Mercury / Micro / Reed**

The **DK's Balloon type Float Switch** has a body exterior made of a durable and oil/acid resisting synthetic compound. The device has been found extremely useful and dependable as a means for governing pumps and for signaling purposes. A weight body attached to the cable effectively prevents the cable from being sharply flexed. The switching elements to which the cable conductors are connected consist of a sealed micro / mercury / reed switch.
